

Sample Answer for Programming Assignment Unit 2

### Printing nine lines

•

•

•

•

•

•

•

•

•

## Calling clearScreen()

•

•

•

•

•

•

!

•

•

```
.  
.   
.   
.   
.   
.   
.   
.   
.   
>>>
```

### Unit 2 Python program

# define a function to print one blank line

```
def new_line():
```

```
    print('.')
```

# define a function to print 3 blank lines

```
def three_lines():
```

```
    new_line()
```

```
    new_line()
```

```
    new_line()
```

# define a function to print 9 blank lines

```
def nine_lines():
```

```
    three_lines()
```

```
    three_lines()
```

```
    three_lines()
```

# define a function to print 25 blank lines

```
def clear_screen():
```

```
    nine_lines()
```

```
    nine_lines()
```

```
    three_lines()
```

```
three_lines()
new_line()
# Print nine lines to console
print("Printing nine lines")
nine_lines()
# Print 25 lines to console
print("Calling clearScreen()")
clear_screen()
```
